**About Me** A passionate and results-driven Full Stack Developer with hands-on experience in building responsive, scalable web applications using the **MERN** stack. Proficient in integrating modern UI/UX with robust backend services, and experienced with SQL/NoSQL databases, API development, and cloud deployment. Adept at solving real-world problems through clean code and agile collaboration. Currently working with RWS Group, building AI-driven backend systems.

## Experience

### Languages

- C/C++
- JavaScript
- Python
- PHP
- HTML
- React
- Node
- Express JS

### Database

- SQL
- Postgres SQL
- NoSQL
- Mongo DB

### UI/UX

- Photoshop
- AI
- 2D/3D Animation

#### RWS Group Aug 2024

##### MERN Stack Developer

- Spearheaded the development of internal AI-powered tools, contributing to the backend using Node.js and Express, and managing databases on SQL Server and MongoDB.
- Maintained and upgraded existing systems by integrating REST APIs and enhancing performance.
- Collaborated cross-functionally with UI/UX and QA teams to streamline user experience and functionality.
- Developed a comprehensive full-stack **Library Management System** using MongoDB, Express.js, React.js, and Node.js (MERN).

#### WellTech Infotech (Jan 2024 - Aug 2024)

##### Talent acquisition Specialist

- As a Talent acquisition developer worked for big companies (like Microsoft, Amazon, Deloitte Pwcs etc) and brought placement in developer field.
- Being a lead specialist worked with the development team for more accurate resume and work on the software of SOE and also ERP

#### Programming Classes (Jan 2022 - December2023)

##### Full Stack Developer

- Highly qualified in Full Stack Developer and proficient in both front-end and back-end technologies used in web development
- Key skills include proficiency in languages like JavaScript, Python, or Ruby, knowledge of frameworks such as ReactJS and Node.js, and familiarity with databases like SQL or NoSQL.
